

AnDevCon

The Android Developer Conference

Fireside Chats

(without the fire)

Lead by Manfred Moser of simpligility technologies

Beverages will be served

Android Community Leaders

Monday, March 7, 7:00 pm, Synergy 4

Do you lead or help at a Java User Group, Google Technology User Group or an Android Developer Group?

Are you a developer advocate working with Android?

Do you promote Android in any way?

Or do you just want to find out more and join the tribe?

If so, check out this Fireside Chat to exchange ideas, network with peers, make new friends and have some fun!

Proposed topics include:

- Running a JUG and GTUG as one group—good idea or bad idea?
- Contact details of Open Handset Alliance members for sponsorships

Android Development Tooling

Tuesday, March 8, 7:00 pm, Synergy 4

Are you interested or involved with Android development tooling such as the SDK, plugins, different IDEs and editors, or anything specifically used for Android?

If that's the case, join this Fireside Chat to exchange ideas, network with peers, start some cooperations, make new friends and have some fun!

Proposed topics include:

- What can be done to encourage Google to get more artifacts (e.g. maps.jar and various SDK jars) in Maven Central for all to use?
- Will we see Guava, Guice or your favorite library become part of the Android API anytime soon?
- How can we encourage OHSAs or let them know about our ideas?
- What about coordinating work on reusable component packaging beyond library projects?
